Vent-Free Fireplaces & Fireplace Logs

Bring a room to life with the comfort of our Vent-Free Fireplaces and Fireplace Logs

Freestanding Vent-Free Fireplace ▸
Our freestanding vent-free fireplaces need no hearth -- they sit anywhere, in any room, to bring you hearth-felt comfort! Offered in ivory finish.

Deluxe Vent-Free Firebox ▾
Combine one of our vent-free fireboxes and fireplace log sets to enjoy all the comfort of flame-wrapped split oaks radiating warmth from your very own glowing hearth - - and do it with 99.9% heat efficiency. All this without the expense of a chimney.

Dual Burner Fireplace Logs ▴
In our dual-burner log set the "exclusive crosslighter" design maintains full yellow flame even on low setting.

Deluxe Vent-Free Firebox ▸
Build-in or frame-up one of our space-saving vent-free fireplace models to enrich your home. Vent-free fireboxes can be enhanced with a mantel - -Shown here with wall oak surround

Features

Vent-Free Fireboxes

Williams' full-size vent-free fireboxes are designed specifically for Williams' vent-free fireplace logs. Our vent-free fireboxes feature l arge brick refractories for a genuine masonry look. A right-side knockout provides convenient gas line access. Each firebox comes with a black, luster-finished heat deflection canopy. An optional polished brass trim kit is available for deluxe models. Firebox is shipped ready to install. *No other gas log sets are to be installed in these fireboxes.*

Vent-Free Fireplace Logs

Two-Burner Design Includes: Four Logs, Lava Rock, and a Placement Grate with a Two-Burner Design. On the low heat setting, the dancing rear flame provides both heat and a view of the flames. The high heat setting turns on the front burner so the glowing, charred wood embers are visible and additional heat is radiated into the room. With thermostat models, both flames are on for all settings.

Single-Burner Design Includes: Four Logs, Lava Rock, and a Placement Grate with a Single Burner.

Williams' Vent-Free Fireplace Logs can be installed in solid-fuel burning masonry and factory-built fireplaces that have been properly installed with venting according to code. Damper may be in the closed position when using Williams' Vent-Free Fireplace Logs.

Freestanding & Vent-Free Fireplace
